

NESTLÉ-FREE WEEK 2-8 JULY!

Please display this poster in appropriate places.

1.5 million babies die every year because they are not properly breastfed. Despite this, Nestlé continues to aggressively market baby milk in breach of international marketing standards!

You can call Nestlé's free phone number to explain that you will boycott its products while it breaks the rules.

If you don't boycott all year round, why not do so in international Nestlé-free week 2-8 July and make a call.

Call Nestlé on 0800 00 00 30
